Dear Trinidad Trails Commission,
A comment about Parker Creek Trail.

The residents along Parker Creek Drive are heavily impacted by users of this trail. Trail users routinely park cars along the field highlighted in yellow.

Page 6 of *T. T. Policy* states no parking on Parker Creek **Drive**/Road for trail use.

Some homeowners have posted the narrow yellow area with no parking signs ourselves and this has helped to keep our access wide enough for emergency vehicles.

Most trail users have dogs and most of these dogs are off leash dogs going to Old Home Beach or coming back to their cars from the beach. The first thing that usually happens, the dogs run into our yards and crap. Some of us have cats and the cats are harassed by the dogs. People do not realize this is a neighborhood.

Not uncommon to have people pissing next to their cars right in plain view of our windows before they use the trail or getting back to their cars before the drive home, that's always pleasant for us.

So we all hope Parker Creek **Drive**/Road is posted no parking when this Policy is finalized.

Thanks for your hard work and taking the time to read this.

Jacques Beaupre
